Re: Confirmation Letter for Kalisa David

Respected Sir/Madam,

I, Esther Chigohwa, residing at 1329 Betamy lane, am a permanent resident of Canada and I am writing this letter to confirm the arrangement for Kalisa David to stay with me during his initial period in Canada before transitioning to campus accommodation for his studies.

David is my cousin, and we have a close familial relationship. We have maintained regular contact despite the geographical distance between us. As cousins, I am committed to providing him with a supportive environment during his academic journey in Canada.

David will be coming to Canada to pursue his studies at Cambrian College of Applied Arts and Technology. Initially, he will stay with me at my home for a brief period before transitioning to campus accommodation once his studies commence on May 06, 2024. During this initial period, I will ensure that he has a comfortable living arrangement and assist him with any necessary arrangements.

Although David will be living on campus once his studies commence, I will remain actively involved in his academic journey and will be available to offer assistance and guidance whenever. He does not have any intention of extending his stay beyond the specified period and is committed to complying with all immigration regulations.

Should you require any further information or documentation to process David's application, please feel free to contact me at your convenience?

Sincerely,

Esther Chigohwa
